Harrison Machine & Plastic—Custom Machined Parts

Harrison Machine & Plastic specializes in custom plastic machining for your industrial application. With their CNC machining capabilities, parts and prototypes can be made using threading, drilling, slotting, and tapping.

- **Design Flexibility**—Change your design with little or no cost. Plastic machining offers more design flexibility than molding your part or prototype.
- **Quality Custom Machined Parts**—For nearly 40 years, Harrison Machine has provided customers with quality machined products that solve a problem or suit a special application.
- **Machining vs. Molding Your Part**—Machining your plastic part or prototype is more cost effective than molding it, when quantities are smaller and tighter tolerances are needed. You save on

tooling costs when your parts are machined, even when your dimensions may change.

- **DN15 thru DN400** flange sizes available from PVC & CPVC material in the following configurations: Blind Flange, Socket Vanstone Flange, and Blind Flange with tap.

Have Harrison machine your custom machined plastic products from: PVC, Corzan® CPVC, PE, Nylon, Acrylic, UHMW PE, Kynar® PVDF, Polypropylene, and HDPE. As always, “If you can’t find it, call Harrison or visit www.harrisonplastic.com.

Lutz—Eccentric Screw Pump B70V SanitaryPlus

The Lutz B70V SanitaryPlus is a powerful eccentric screw pump for very sensitive, viscous and slow-moving liquids up to the limits of flow. Driven by single or three-phase motors with and without frequency converter.

Features

- Hygienically designed to the latest FDA and 3-A standards.
- Easily accessible and inspectable components.

- Polished metal surface
 - Tri-clamp connection for quick connection and dismantle for easy to cleaning.
 - Also for alcoholic food products, cosmetics and pharmaceuticals and flammable cleaning products
 - For liquid foodstuffs and luxury foodstuffs, pharmaceutical substances and cosmetic products
 - Viscosities to 100,000 cps.
- Applications for pastes, syrups,

oils, ethanols, additives, colorings, dyes, fragrances, etc.

For information on Lutz complete line of drum pumps, visit www.lutzpumps.com.

ICON Process Controls—TKR Series Flow Meters

The Trufluo TKR Rotator Series includes a complete range of paddle wheel flow sensors, instruments and sensor installation fittings. All Trufluo products provide high quality and state-of-the-art technology.

The TKR Rotator Series Flow Meters offers an innovative union-style design for 1” - 4” pipe sizes. The TKR Series are available in several design options: TKRS/TKRP/TKRM Series with options for relay output, pulse output, and 4-20mA. The display rotates 360 Degrees with the industry’s highest accuracy rate of 0.5%. TKR Series Flow Meters have

a Lifetime Warranty on the paddle assembly. Key features include: High Accuracy, Excellent Low Flow Measurement, Suitable for Corrosive Media, Easy Installation, Low Cost, Life Time Warranty, Corrosion Resistant, and True Union Design. For complete product details, visit www.iconprocon.com.

Pulsafeeder—Integrated Tank System

The Pulsafeeder ITS System is a completely integrated tank system constructed of UV resistant polyethylene (PE) with a 15 gallon capacity. This tank system is translucent with 5 gallon increments and the tank's low level indicator allows visual monitoring of chemicals without opening the tank. The tight

fitting lid keeps chemical free of contaminants and protects the area from chemical fumes.

The ITS System also allows for easy access to the liquid end and control panel of the mounted pump. A system consists of a chemical tank with lid and bulkhead fittings; a liquid level indicator float assembly and feeder mounting hardware.

- **Flooded Suction Design**—Flooded suction allows for continuous pumping without loss of prime.
- **Universal Pump Mount**—The "ITS" is predrilled for pump
- **Built-in Grip**—For easy lifting and moving of ITS System
- **Optional Shut-Off Valve**—Allows maintenance on metering pump without emptying chemical.

For product specifications, visit www.pulsatron.com.

The Blue Line—Win Amazon Echo Dot!

Foust Marketing is offering the opportunity to win a prize in this issue of [The Blue Line](#).

This issue we are offering an **Amazon Echo Dot** courtesy of Harrison Machine & Plastic. Enter by visiting below link with the answers to the questions.

We are excited to announce the winner of our "Year End Prize", the Apple Watch courtesy of Pulsafeeder and Foust Marketing.

1. What are some of the plastics available for custom machined parts from Harrison?
2. What types of liquids is the Lutz B70V SanitaryPlus eccentric screw pump designed for?
3. What does the TKR Series Flow Meters include as an option?
4. What does the Flooded Suction design of the Pulsafeeder ITS system allow for?
5. According to Stephen Covey, what are we a product of?

Preston Meredith (Pictured below) Nationwide Plastics—Arlington, TX
