Christy's – Your Wholesale Distributor Partner

Christy's brings together a unique combination of products and services to help the wholesale distributor achieve greater success in a competitive marketplace.

Experience the Christy's Advantage:

Simplified sourcing – low freight minimums, broken case capabilities, direct-to-store shipments. Fast delivery from multiple warehouses.

Consolidate vendors – one-stop shopping in multiple categories reduces vendors, makes “making freight” easy. Improve your turns and your margins.

Easy source for specialty items – tools and other job site essentials including national-brands.

Contractor-preferred brand – Christy's brand recognized for high value – best mix of price and performance for the professional user.

Extensive merchandising and display capabilities – we help you choose the right assortments and display them effectively for maximum inventory ROI.

1 PALLET
= Purchase Order
= Paid Freight Minimum
= PO to Track
= Shipment to Receive
= Bill to Pay

Solvents and Primers

Christy's line of solvent cements and primers includes a solution for every need and application providing the wholesaler and contractor “one stop shopping” in a single proven brand.

Christy's is the preferred solvent cement brand by irrigation professionals in an independent nationwide study. We offer a complete family of solvent cement solutions for irrigation, plumbing, DWV, pool/spa and drainage.

Red Hot Blue Glue®, the best selling irrigation solvent brand, offers fast action, proprietary formulation, reliability in wet conditions. Can be used without primer where codes permit. Guaranteed quality – bond for life!

Sealants, Lubricants and Epoxies

Christy's offers a broad selection of sealants, lubricants and related products used in the installation and repair of both potable water and drainage systems. We offer thread sealants and lubricants, gasketed pipe lubricant, general-purpose lubricants, pipe repair epoxies and specialty adhesives in both proprietary Christy's formulas as well as other brands.

Hand Tools

Professionals trust tools from Christy's. We offer our own wide selection of high-performance, competitively-priced tools built for the demanding requirements of professional contractors. We also allow you to consolidate your tool purchases by offering preferred national brands. Christy's can help you grow your sales and customer satisfaction with our contractor tool displays and merchandising programs.

Job Site Essentials

Every professional project requires consumable supplies. Christy's helps you provide a comprehensive selection of job site essentials to your customers. Choose from popular items like adhesive tapes, marking paint, flags, hardware/anchors, debris bags, cleaning supplies, batteries, gloves, safety supplies, electrical cords, rainwear and more.

Geotextiles

No matter your landscape projects, Christy's has the geotextile solution for your needs. We offer a comprehensive range of durable solutions for weed control, drainage, filtration, soil stabilization and erosion control. A variety of roll sizes and options, plus a full range of accessories makes stocking a breeze.

Marking Products

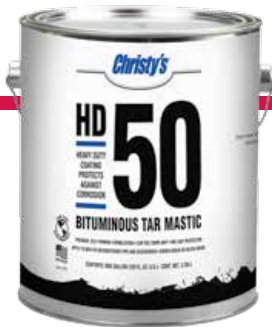

Christy's marking products make projects easier to manage and maintain by clearly identifying as-built components and preventing accidental damage. Design professionals specify Christy's underground pipe and cable marking tapes, valve identification tags, cable and marking posts, and reclaimed water identification supplies.

Polywrap

Polyethylene encasement, also known as Polywrap or Layflat, is an economical and highly-effective method of corrosion protection for cast iron, ductile iron & steel pipe, valves and fittings. Available in different colors, polywrap can also be used on PVC pipe as a means of pipeline identification. Christy's Polywrap meets the standards set by ANSI/AWWA C105 and is available in Linear Low Density and High Density Cross-Laminated. A variety of colors, perforations and roll lengths are available for all requirements.

Waterworks Specialties

Designed by professionals for professionals, Christy's offers a wide selection of high-quality waterworks tools, coatings and mastics, pipeline accessories and specialties. We specialize in corrosion protection including cathodic protection equipment to meet the most rigorous specifications. Christy's also provides a wide selection of other waterworks products for easy installation, testing, tracing and maintenance.

Copper Fittings

Christy's offers a complete selection of wrought, forged and cast copper fittings for both potable water and DWV systems.

Merchandising Solutions

Christy's offers merchandisers & displays to help you reach your sales & profit goals faster. A small investment yields big returns in impulse sales and increased customer satisfaction. We offer standard and custom displays with product assortments based on studies of best-selling items for professionals, helping you maximize turns and sales per square foot. Displays can be restocked with a single order.
