Lutz Turbine Wheel Flow Meter TR for Drum Pumps

Lutz Flow Meters provide easy to read measurement and transfer of chemicals. The flow meters are built compact and for quick assembly on all drum and container pumps. The Lutz Flow Meter TR is an intuitive meter that you can count on in

all situations. The Flow Meter TR measures thin-bodied, non-flammable liquids accurately, fast and efficiently.

Features

- Proven radial turbine technology
- Wide measuring range
- Free-rotatable after assembly
- Variable display alignment
- Large illuminated display
- Display partial and total volumes
- Range of measurement from 1.3 GPM - 31.7 GPM

Lutz Flow Meters are available in PP and PVDF and ideal for measuring neutral liquids, acids and alkalis and many other non-flammable liquids. Liquid examples: glycol, ferric chloride, hydrochloric acid, phosphoric acid, biocides, inhibitors, and more.

Accurate work is very important today in laboratory as well as in production and in the handling of fluids. The precise measurement of liquid ensures economical handling of the operating resources. For more details, visit [Lutz Flow Meter TR](#).

SWM—Coretec® High-Performance Profile Extrusions

SWM (Formerly Delstar) manufactures an extensive line of Coretec™ profile extrusion products. They specialize in the extrusion of high-performance materials, including engineering-grade thermoplastics and fluoropolymers. The Coretec™ line of high-end tubing, rods, pipes, and open-profile shapes are designed to meet aggressive requirements related to temperature, chemicals, moisture, and other extremes.

SWM manufactures PEEK (polyetheretherketone) pipes and tubes and are available in a wide range of diameters and wall thicknesses. PEEK is a high-performance engineering thermoplastic with outstanding resistance to harsh chemicals, and excellent mechanical strength and dimensional stability. They offer same-day shipments, drop shipments, and stocking agreements, as well as product customization per application.

NIBCO Partner App Now Available

NIBCO (Chemtrol) is excited to announce the launch of the new NIBCO Partner mobile app making it faster and easier for you to do business with them from your Apple or Android tablets and phones. The app features a user-friendly interface providing an alternative to search and browse products, check product availability, place an order, and confirm order and shipping status.

The new app is available to all customers and easy to get started with NIBCO Partner.

Current Partner User

- Download the NIBCO Partner app from the iOS or Google Play store.
- Log in with Partner credentials.
- If you are not an active user and your password expired, call us to reset.

Non-Partner User

- Contact NIBCO to create a new Partner account.
- Download the NIBCO Partner app from the iOS or Google Play store.
- Log in with Partner credentials.

NIBCO is committed to bringing you innovative services as well as quality products. Contact our sales team for information.

The Blue Line—Win Amazon Echo Dot!

Foust Marketing is offering the opportunity to win a prize in this issue of [The Blue Line](#).

This issue we are offering an Amazon Echo Dot courtesy of Lutz and Foust Marketing.

Enter by visiting below link with the answers to the questions.

1. In what materials is the Lutz Turbine Wheel Flow Meter TR available? What fluids are they ideal for measuring?
2. List a couple Christy's Job Site Essentials? Don't forget to watch the video and download the list of Job Site Essentials?
3. What High-Performance Engineered Thermoplastic is mentioned in the SWM article?
4. What are some of the features

with the new NIBCO Partner mobile app?

5. What does Shondarius say about following the crowd?

Winner of the college **Monopoly** game from the last issue courtesy of King Plastic and Foust Marketing.
