Pyxis SP-710—Handheld Water Multimeter

The Pyxis SP-710 handheld multimeter measures six key water treatment parameters simultaneously: pH, conductivity,

PTSA, Free Chlorine, ORP, and Temperature. Featuring simple, one-handed operation, the multimeter leverages Pyxis proprietary technology combining electrochemical and optical measurements in a cuvette-less platform.

With the SP-710, you can view results in under a minute for all key parameters for a typical water treatment application such as cooling tower analysis. The multimeter logs a complete measurement history, which you can transfer via Bluetooth

to your smart phone or PC for statistical analysis. Custom product names and tracer/product ratios can be configured via Bluetooth-enabled devices.

For highest accuracy, the PTSA measurement uses proprietary signal processing algorithms to compensate for sample color and turbidity conditions, which would otherwise cause erroneous readings.

Contact our sales team for more information and product specifications or visit pyxis-lab.com.

Notes of Interest

- "Let no corrupting talk come out of your mouths, but only such as is good for building up, as fits the occasion, that it may give grace to those who hear."
—Ephesians 4:29
- "God feeds the birds, but He does not throw the worms into the nest. Rise and shine, hustle and grind."
—Dave Ramsey

Company News

- Foust Marketing offers a complete line of Pipe Pullers and Cordless Power Bevelers for large diameter pipe and fittings.

Harrison Machine & Plastic—Reduced Installation Costs

Harrison Machine & Plastic Superduct® piping systems are custom fabricated to specifica-

tions. Harrison Superduct® is offered from 2" to 60" and available in PVC, CPVC, PP, PVDF, and HDPE materials.

Harrison Can Save You Money

Harrison can pre-build large sections of your duct fume exhaust system to reduce your installation costs. Sections are available Flanged, Socket, and Plain end for easier installation. Harrison Machine & Plastic is involved in the fabrication and

distribution of plastics primarily to the industrial market, where fluid and air handling systems are used in extremely corrosive environments. Harrison can custom fabricate your large diameter pressure, drainage, and duct fittings. Harrison can provide take-offs and fabrication of complete exhaust systems for the metal finishing, wastewater and chemical industries. To get details on pre-fabricated duct visit www.harrisonplastic.com.

IPS Products Receive UL GREENGUARD Gold Certification

responsibility. The GREENGUARD Gold Certification Standard includes health-based criteria for additional chemicals and also requires lower total volatile organic compound (VOC) emissions levels to ensure that products are acceptable for use in environments such as schools and health care facilities. For more information, contact our sales team or visit www.weldon.com.

IPS is proud to announce that Weld-On and Christy's solvent cements, primers and cleaning products have received UL GREENGUARD Gold Certification. Products that have achieved GREENGUARD Gold Certification have been tested and certified to meet some of the world's most rigorous, third-party chemical emissions for improved indoor environments. As a worldwide leader in providing the best pipe joining solutions to their customers, IPS is committed to developing the highest-quality products while remaining on the leading edge of environmental

Lutz—Drum Pump Selection

Lutz Drum Pumps have always exceeded industry standards in availability of sizes, materials of construction and performance.

The correct selection of the drum pump is important for a safe and effective application.

- **Pumping Parameters** - Flow rate (GPM), Head (FT), Viscosity (cps), Specific gravity, Temperature.
- **Chemical** - What is the chemical being pumped? Is the fluid flammable or combustible?

- **Motor** - What is best for the application? Electric - Open Drip Proof or TEFC (Totally Enclosed Fan Cooled), Air Operated, Explosion Proof, and Battery Power.

- **Pump Tube Selection** - Lutz offers a variety of materials including: Polypropylene, PVDF, Stainless Steel, Hastelloy C, Aluminum, Progressive Cavity, and more. Lutz also offers drum pumps that connect to bottom of container.

- **Container Sizes and Tube Length**
(27") Small Drum or Carboy
(39") 55 Gallon Drum
(47") 275 Gallon Tote
(55") 330-350 Gallon IBC.
(78") Available in PP and SS
Custom length tubes available.

- **Accessories** - Hose, Nozzles, Grounding Wires, Flow Meters, Drum Adapters, strainers.

The Blue Line—Win Anker 4-Port USB Hub!

Foust Marketing is offering the opportunity to win a prize in this issue of [The Blue Line](#).

This issue we are offering an **Anker 4-Port USB Hub** courtesy of Foust Marketing.

Enter by visiting below link with the answers to the questions.

1. What key water treatment parameters does the handheld Pyxis SP-710 measure?
2. How can Harrison Machine & Plastic save you money on your next project?
3. What does the GREENGUARD Gold Certification Standard also require of IPS products?
4. What is the recommended Lutz Drum Pump tube length for a 55 Gallon drum?

5. What did Dave Ramsey say about feeding the birds?

Winner of Amazon Smart Plug from the last issue courtesy of Champion Fiberglass and Foust Marketing.
