Lutz Jesco—EASYPRO Water Sampling Station

The Lutz Jesco EASYPRO water sampling station monitors and controls a range of water parameters in your industrial and water treatment applications.

The EASYPRO Compact water sampling station is first choice in the sanitation and disinfection of healthcare facilities, public water applications, industrial, and food and beverage applications to public swimming pools and industrial plants.

The EASYPRO ensures precise and accurate dosing and monitoring of various different parameters including: Bromine, Free Chlorine, Chlorine Dioxide, Total Chlorine, Ozone, pH, Redox Value, Chlorite, Hydrogen Peroxide, and Temperature.

The TOPAX® MC multi-channel controller installed in the EASYPRO subjects the water parameters to constant measurement, keeping within the target range. It enables you to control a large number of actuators and permits easy and intuitive operation.

The touchscreen can control various parameters, be operated manually or remote via various protocols including Ethernet/Modbus with easy to recognize probe indicator lights in green, yellow and red for simplistic operation confirmation.

Notes of Interest

- "Honor your father and mother"—this is the first commandment with a promise—"that it may go well with you and that you may live long in the land."
—Ephesians 6:2-3
- "Christianity, if false, is of no importance and, if true, is of infinite importance. The one thing it cannot be is moderately important."
—C.S. Lewis

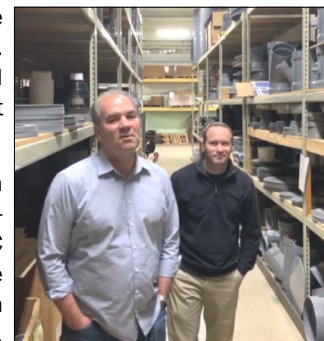

Company News

- Foust Marketing offers training for ASME B31.3 Solvent Cement Welding Plastic Piping Systems.

Harrison—Largest PVC and CPVC Duct Inventory

Harrison Machine & Plastic based in Garrettsville, OH maintains the largest inventory of high-quality PVC and CPVC Duct Pipe and Fittings. Harrison carries one of the largest duct pipe inventories in several locations in the US. In addition, they maintain a large inventory of duct fittings: elbows, tees, dampers, blastgates, flanges, and more.

Harrison duct systems are fabricated to your specifications. Harrison duct and piping is offered from 2" to 60". Fittings are made to customer or SMACNA specifications. Harrison is a Certified Corzan® CPVC Qualified Fabricator. Harrison duct pipe and fittings are cost-effective for industrial corrosive fume, exhaust and drain applications. Harrison duct and fittings are light weight, making it easy to handle and install, and has excellent chemical resistance. For a complete list of available duct fittings, visit www.harrisonplastic.com/cpvcdimensions.

Foust Marketing Partners with Griffco Valve

Foust Marketing is excited to announce our new partnership with Griffco Valve, Inc. Griffco Valve manufactures reliable, high-quality pump accessories for chemical feed and pumping systems including: Back Pressure Valves, Pressure Relief Valves, Calibration Columns, Chemical Injection Valves, Gauge & Instrument Guards, Corporation Stops, Pulsation Dampeners, Fusion Dampeners, Y-Strainers, and other Accessories.

Greg Lucas, Regional Sales Manager, of Griffco Valve, Inc., stated that "Foust Marketing was an excellent choice in the region due to their experience in the industrial, municipal, and water treatment industries." Established in 1992, Griffco products are used for municipal, industrial, and processing applications worldwide. For information, visit www.griffcovalve.com.

SWM—Coretec™ Urethane Tubing

SWM manufactures an extensive line of Coretec™ pipe, rod, and tubing designed to meet aggressive requirements related to temperature, chemicals, moisture, and other extremes.

Coretec™ urethane products are the choice of design engineers for many diverse applications. As a class of materials, polyurethanes occupy a unique position among polymers, sharing the best properties of rubbers and plastics, but without their inherent weaknesses. They exhibit the elongation and

recovery characteristics of rubbers and the chemical resistance properties associated with plastic. Two grades of Coretec™ urethane tubing fulfill most uses:

Coretec SS-1485

An aromatic polyester urethane tubing with excellent physical properties and resistance to fuels, chemicals and high temperatures.

Coretec ST-1880

A UV-stabilized aromatic polyether TPU with superb low-temperature characteristics and excellent hydrolytic stability.

Coretec Urethane Tubing

Also available in FDA, NSF and USP-VI grades, as well as fire-retardant grades.

The Blue Line—Titleist Pro V1x Golf Balls!

Foust Marketing is offering the opportunity to win a prize in this issue of [The Blue Line](#).

This issue we are offering a sleeve of **Titleist Pro V1x** Golf Balls to the top four entries courtesy of Foust Marketing and Lutz Jesco.

Enter by visiting below link with the answers to the questions.

1. List a couple water parameters measured by the Lutz Jesco water sampling station?
2. What are some of the duct fittings available from Harrison Machine & Plastic?
3. What are some of the high-quality pump accessories for chemical feed systems available from Griffco Valve?

4. What unique position does Coretec™ Urethane Tubing occupy among polymers?
5. What did C.S. Lewis say about the importance of Christianity?

Winner of the Anker PowerCore Portable Charger from the last issue courtesy of Foust Marketing and King Plastic.
