Lutz-Jesco—Custom Designed Chemical Feed Cabinet Systems

Lutz-Jesco's Chemical Feed Systems are successfully used in a wide range of industrial, municipal, and OEM markets. "Turn-key" or Custom Designed and Built Systems for a wide

range of complete chemical feed systems for municipal, industrial, and OEM markets.

Customers can choose from one of our standard pre-engineered systems for common applications, or talk to us about a custom designed engineered system including customer design cabinet systems to precisely meet specifications.

All custom systems are fully tested and calibrated and include all supporting documentation. Job-site startup available.

Harrison Machine & Plastic Offers SS Duct Pipe Hangers

is no rusting and no replacing. For more information, visit www.harrisonplastic.com/ductpipehangers.

Support your HARRISON SUPERDUCT® PVC duct system or Corzan® CPVC duct system with stainless steel duct pipe hangers. Steel is a reliable material that is easy to maintain and install. Stainless steel is very low-maintenance, and because of its corrosion-resistant properties, it's unlikely it will need to be replaced for decades. Available for duct pipe sizes 3" to 48". Contact factory for sizes above 24". Harrison also offers non-metallic corrosion resistant wall supports, and are an excellent choice in highly corrosive environments. Attach with corrosive resistant stainless steel bands. Harrison's specially designed PVC & CPVC pipe wall supports are fabricated entirely out of plastic—so there

Lutz—Air Operated Double Diaphragm Pumps

Lutz AIRTRAN™ pump housings are available in Polypropylene, PVDF, Nylon, Conductive Nylon, Aluminum and Stainless Steel. The membranes, ball valves and O-rings are available in Teflon®, FKM (Viton®), Geolast® (Buna-N) and Santoprene®.

Lutz AIRTRAN™ - Air Operated Double Diaphragm transfer pumps are a natural complement to the Lutz range of pumps. Similarities to their existing range of pumps include their simplicity, versatility, and both ease of handling and maintenance.

Lutz AIRTRAN™ pumps are available in many different sizes and materials of construction to suit all of your applications.

Both clamped and bolted versions are available. The pump range comprises 1/4" - 3" size. Pump capacities go up to 255 GPM with maximum air pressures up to 120 PSI.

Lutz is the leader in high-tech drum pump technology worldwide and the #1 in North America, where we have been providing solutions for more than 45 years. For more information, download the complete brochure at [Lutz AODD Pumps](#).

The Blue Line—Win SCOUT Bag!
