Harrison Machine & Plastic—Custom Fabricated PVC Blastgate

Harrison Machine & Plastic can fabricate nearly any size or shape fitting that can physically

be manufactured. They can fabricate any degree fitting required to complete that challenging installation project.

Harrison recently received a project that included a custom fabricated 38" PVC Duct Blastgate (pictured left) and custom-fabricated elbows. Harrison offers blastgates in standard sizes 2" - 24" diameters. Harrison was selected because they met the exacting tolerances required and fabricate to the highest quality welding standards in the industry.

Send Harrison your prints or a sketch and their experienced team can custom fabricate the fittings to your specifications.

Custom fabricated items can be made from plastic materials including PVC, CPVC, HDPE, PP, and PVDF. Cut your installation costs by buying pre-fabricated header-manifold systems fabricated to your prints.

For more detailed information, contact our sales team or visit www.harrisonplastic.com.

- We wish everyone a safe and prosperous New Year!

King Plastic—King ColorBoard® Used for Pet Day Care

King ColorBoard® is a colorful environmentally stabilized high-density polyethylene sheet. It is the product of a proprietary process called K-Stran™, the

most advanced manufacturing process for superior flatness and consistency. King ColorBoard® has a matte finish on both sides of sheet. It is environmentally stabilized to withstand the toughest applications.

- Kennels
- Pet Day Care Furniture
- "FUNgility" Equipment
- Cat Atriums
- Dog Suite Doors and Dividers

The material is versatile, durable and colorfast for the competitive edge you're looking for. Its bright, primary colors make it ideal for pet day care applications. For maximum versatility, standard colors made to coordinate with King ColorCore®.

The polymer sheet never needs painting or refinishing, works like wood and it is easy to fabricate using common woodworking tools and techniques.

Mativ—PEEK Coretec™ Pipe, Tube, and Bushing Stock

Mativ offers a line of superior performance PEEK Coretec™ tubing. Customers prefer Coretec™ PEEK (Polyetheretherketone) pipe, tube, and bushing stock because it is a high performing and lightweight alternative to stainless steel. PEEK material is an engineered polymer with an extremely broad range of uses. PEEK can be extruded into high temperature and high strength tube which can be found in multiple industries including: aerospace & defense, automotive, fiber optics, fluid management, food & beverage, high performance liquid chromatography (HPLC), medical & laboratory, oil & gas, and semiconductor. Coretec™ PEEK tube exhibits strength, durability and chemical resistance that are compatible with a wide range of applications.

Foust Family Update!

Left to right: Annie (17), Sam (19), Jack (23), and Matt (20)

This time of year we always give an update on our family.

Jack has recently joined the Foust Marketing team. He will start in inside sales for key accounts. Matt is senior at the University of Arkansas and will be graduating in the spring with a degree in Finance. Woوو Pig! He still plans on being a pilot following graduation. Sam is freshman at the University of Alabama and pursuing a degree

in Electrical Engineering. Roll Tide! He is also working on their Formula One team. Annie is a senior in high school and plans on attending Auburn University. We love our dogs. Bentley our golden retriever is ten years old, and Bear our miniature golden-doodle is the boss of the family.

The Christmas season is special to the Foust family, Our faith is key to our company and the success of our manufacturers.

“For by grace you have been saved through faith. And this is not your own doing; it is the gift of God, not a result of works, so that no one may boast.”

—Ephesians 2:8-9

Kelly and I appreciate all the support. We are blessed with friends and partners in success.

The Foust Family

The Blue Line—Win Apple iPad!

Foust Marketing is offering the opportunity to win a prize in this issue of [The Blue Line](#).

The year-end prize will be the Apple iPad courtesy of King Plastic and Foust Marketing.

Foust Marketing is excited to start our 24th year in business and look forward to working with everyone in 2025.

1. What diameter was the custom fabricated blastgate from Harrison Machine & Plastic?
2. List a couple applications for King ColorBoard® polymer sheet for Pet Day Care?
3. What does Mativ offer in their line of superior performance PEEK (Polyetheretherketone)?

4. Where does Annie plan on attending college?
5. What did Dave Roeever say about your scars?

Winner of the lunch for the sales team from the last issue courtesy of King Plastic and Foust Marketing.
